

# The GLA Survey of Londoners

## Key Findings

# What is The Survey of Londoners?

- GLA has been developing a **Social Evidence Base** for London
- This is to fill evidence gaps in areas important to the Mayor such such as social integration, economic fairness and food security
- Part of this Social Evidence Base is The Survey of Londoners which collected data from 6,601 Londoners across the whole city and is being used for making policy in these areas
- The full report is available on the London Datastore:  
<https://data.london.gov.uk/dataset/survey-of-londoners-headline-findings>
- This presentation provides a few key findings from the Survey

# The Survey of Londoners: Belonging - most Londoners feel they belong to London and their local area

Belonging to London is higher among Londoners from a Black or Asian ethnic background

% of Londoners expressing "very" or "fairly strong" sense of belonging to London and their Local Area

- Belonging to London is lower in some London Assembly areas which have stronger links with their surrounding areas outside the city including 'Havering and Redbridge' and 'Croydon and Sutton'
